June 10, 2008

Dear Valued Customer:

As most of you know, the rising cost of fuel does not only affect the price of filling your tank it has translated across the board to most every product you purchase. With so many of our products being petroleum based, their prices are escalating as fast as your price at the pump.

There are two price increases for the month of June for every shingle manufacturer, and the cost of coil nails increases almost daily. We anticipate an increase in felt in the near future. Shingles are projected to increase 10-20% by the end of June. With this in mind, please check with us before you quote any job.

We apologize for any inconvenience this may cause. As always, we appreciate your business. If you have any questions, please do not hesitate to call.

Sincerely,

Residential Sales Department
